

The smart tool for easy, accurate diagnosis coding

Set the Foundations... and Prepare for the Future

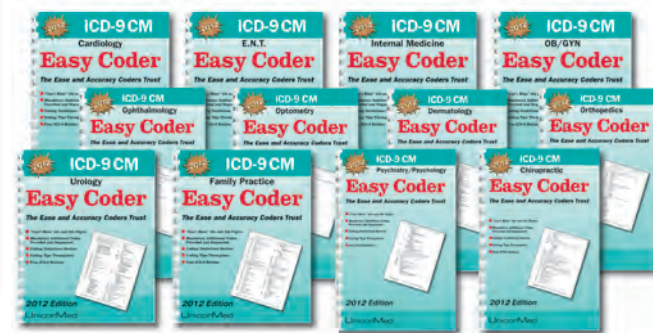

Easy Coder ICD-9 CM

Diagnosis coding doesn't have to be complicated and time-consuming. In fact, Easy Coder is so user-friendly, it helps reduce coding errors and improve your reimbursement and compliance. Simply look up the diagnosis alphabetically and go straight to the accurate and specific code—no page-flipping or cross-referencing. No other code book makes accurate coding so easy and efficient.

Comprehensive version (all diagnosis codes – softbound) \$79.00

Comprehensive version with Vol. 3 Proc. (softbound) \$89.00

Easy Coder ICD-9 CM Specialties

The same user-friendly benefits are available in twelve specialty-specific versions, with only the codes for the particular specialty and general medicine codes.

Cardiology, Chiropractic, Dermatology, ENT, Family Practice, Internal Medicine, OB/GYN, Ophthalmology, Optometry, Orthopedics, Psychiatry/Psychology, Urology

Specialty-specific versions (spiral bound) \$79.00 each

See sample page below.

PNEUMONIA (continued)		PNEUMONIA (continued)	
482.9	Bacterial	482.4#	Staphylococcal
482.99	Bacterial specified NEC		5th digit: 482.4
482.83	Bacterium unspecified		0. NOS
482.81	Bacteroides (melaninogenicus)		1. Aureus NOS or methicillin susceptible
485	Bronchopneumonia (confluent) (circumscribed) (diffuse) (disseminated) (lobar) (hemorrhagic) (terminal)		2. Aureus methicillin resistant
518.8	Bronchiolitis obliterans organized (BOOP)		9. Other staph
482.81	Escherichia coli (E. coli)	482.3#	Streptococcal
112.4	Candidiasis	482.34	Streptococcal beta-hemolytic
466.19	Capillary		5th digit: 482.3
463.1	Chlamydial		0. NOS
462.81	Clostridium (haemolyticum) (novyi)		1. Group A
481	Cryptococcal		2. Group B
481	Cryptococcus neoformans		9. Other streptococcus
481	Diplococcal	481	Streptococcus pneumoniae
483.0	Eaton's agent	481.0	Streptococcus pneumoniae
482.82	Escherichia coli (E. coli)	481.02	Streptococcus pneumoniae vaccination
482.81	Escherichia coli (E. coli)	958.6	Traumatic
482.0	Friedlander's bacillus	908.6	Traumatic late effect
482.81	Fusobacterium (nucleatum)	103.02	Vaccination
513.0	Gangrenous	102.1	Vaccinia
482.51	Gram-negative anaerobic	482.81	Varicella
482.83	Gram-negative bacilli NEC	997.31	Varicella associated
482.83	Haemophilus	480.9	Viral
482.83	Haemophilus influenzae	480.8	Viral NEC
V12.81	History		
0	Hypostatic—due to or specified as a specific type of pneumonia—code to the type of pneumonia		
770.0	Infective acquired postoperatively		

Code directly from alphabetical listing!

• Every diagnosis is listed alphabetically with the correct code beside it.

• Every code is taken to ultimate specificity with 4th and 5th digit menus always on the same page.

• Context sensitive coding hints are provided throughout.

• A complete numerical reference is included in the comprehensive version.

• Mandatory additional codes are beside the primary codes, with the sequencing clearly indicated.

• Includes listing of new / revised / deleted codes (comprehensive only)

CPT® Codebooks from the AMA Experts

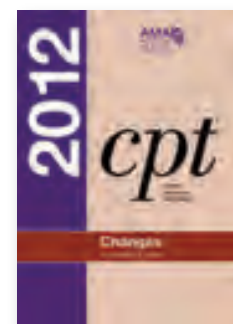

CPT® Codebooks 2012

Correctly interpret and report medical procedures and services with the only CPT codebooks with the official coding rules and guidelines developed by the CPT Editorial Panel.

Choose the Professional edition to get code selection tools like anatomical

and procedural illustrations in each section, section-specific table of contents, reference tables, coding hints, and CPT® Assistant newsletter citations. The AMA's basic Standard edition has anatomical illustrations, a summary of changes, and a complete index. **Professional (spiral) \$109.95 Standard (softbound) \$84.95**

CPT® Changes 2012: An Insider's View

There are more than 500 changes in 2012! Get up-to-date quickly with this essential guide. Every new, revised, or deleted code, text, and guideline change is listed, along with the detailed rationale for the change. Organized by CPT code section and code number, just like the CPT codebook. Available Nov. **(softbound) \$73.95**

Whether you're adding new staff or broadening the skills of your current team, these titles give you a foundation of coding, compliance, and reimbursement knowledge.

Principles of ICD-10-CM Coding (New!)

The transition to ICD-10-CM will impact all practices. Education and preparation will help you make the move confidently and successfully. Written for all skill levels, this book teaches you the conventions, terminology, and guidelines used in the ICD-10-CM system. It provides examples of how to select accurate codes using real-life chart notes to enhance understanding. Available Nov. **(softbound) \$89.95**

Introduction to CPT® Coding (New!)

Selecting the correct codes for the services and procedures you perform is crucial to your practice's success. With this entry-level resource, you'll learn to understand and apply CPT coding guidelines for each section and subsection of the CPT codebook. Includes definitions of key terms and real life coding examples. **(softbound) \$65.95**

Fundamentals of Coding, Payment, and Documentation (New!)

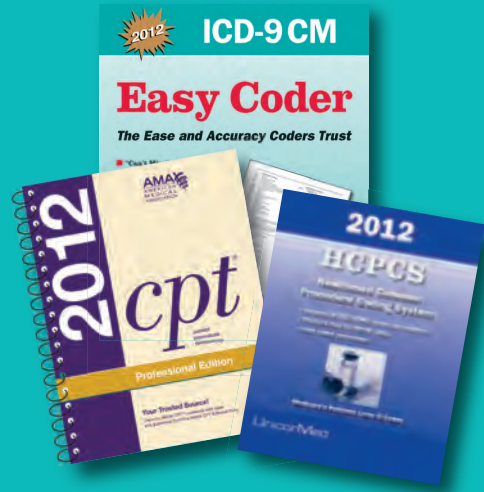

It's not just the coder who needs to understand the importance of coding in the revenue cycle! This book doesn't teach how to code—instead, it demonstrates the relationship between coding and reimbursement, compliance, adjudication, and risk. Includes info on HIPAA, fraud, and documentation. A must-read for everyone involved in documenting, billing, and data archiving. **(softbound) \$59.95**

Medical Record Auditor

This book offers in-depth info on how the medical record is structured and how to review documentation to determine the level of service. You'll learn documentation and coding guidelines and chart-auditing fundamentals. Also includes a chapter on regulatory guidance to help you understand carrier audits, recovery audits, and government audits and how to prepare for external audits. Provides instruction on analyzing and reporting results of an audit. **(softbound) \$89.95**

Coding Necessities

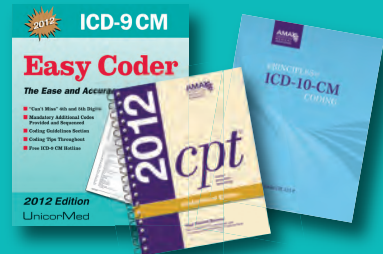

These are the books you need on a daily basis to ensure accurate, effective coding and optimized reimbursement.

2012 Coding Two-Pak:

Easy Coder and
CPT® Professional
\$149.00

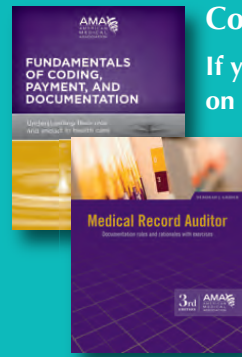

2012 Coding Three-Pak:

Easy Coder,
CPT® Professional and HCPCS
\$219.00

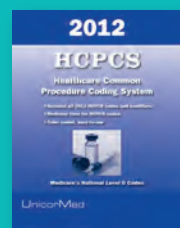

2012 Prep Pak

Easy Coder and CPT® Professional for 2012, plus Principles of ICD-10-CM Coding to help you start preparing for the transition. \$220.00

Coding and Documentation Pak

If you're not absolutely certain that you are up-to-date on the current fundamentals of documentation and coding, don't take any chances. With these two titles, you'll learn how documentation and coding relate to compliance, reimbursement, and risk. You'll learn how to review documentation to determine the level of service. Plus you'll learn about carrier audits, recovery audits, government audits, and how to prepare for them. \$132.00

HCPCS 2012

If you bill for durable medical equipment, supplies, or injections, these special codes can help make sure your reimbursement is accurate. Includes Medicare fees for many codes, APC status information and ASC payment indicators, and Table of Drugs with brand name references and NDCs. (spiral) \$95.00 (Also available in pak above)
